

REGIONAL WORKSHOP ON TRADE IN SERVICES

8 – 11 May 2023 PPIU Office, Apia, Samoa

Application of trade in services data

Presentation by Nilima Lal Economic Statistics Adviser, Pacific Community Email: NilimaL@spc.int

Acknowledgement and introduction

PACER Plus Implementation Unit

Trade in services data sources for the Pacific

Application of trade in services data, by sector for policy formulation and negotiations

Overview of Trade in services

Measures the value of imports (Dr) and exports (Cr) of services between residents and non-residents of a country. Wider scope: covers transactions by foreign affiliates' e.g. a foreign bank subsidiary in a host economy to supply banking services.

Manual on Statistics of International Trade in Services [current 2010 but global consultations have started for its revision]. This framework has four major components

- BPM6 concepts and classification related to international trade in services
- BPM6 extensions, providing more detailed information on transactions by product category and partner country
- Foreign affiliates statistics which complement BPM6
- A statistical approach to the treatment of modes of supply

Residency rule

• Example: Fiji

General government agencies like all government departments, local government, Fiji embassies and consulates located overseas.

Financial and trading establishments, which include all establishments engaged in the production of goods and services on a commercial or equivalent basis. Resident establishments include branches of foreign companies operating in Fiji.

Non-profit bodies like the charitable organizations and business organizations e.g. chambers of commerce and churches.

Resident households and individuals residing in Fiji for one year or more and whose center of interest is considered to be Fiji.

Fiji's diplomatic and consular representatives, armed forces and students studying abroad are also considered Fiji residents.

Need for International trade in services (ITSS)

National Accounts: GDP (E)

Other then the internal users, there are external users –

- Students/teachers to gauge their country's performance and economic relationship with the rest of the world
- Financial sector economists, national and international investors
- International agencies such as the IMF and UN to monitor their member country's performance and the preparation of country reports and the compilation of global ITSS. It also allows them to assist PICs adhere to the international standards and practices
- Academic researchers for research, econometric modelling
- Government's for monitoring and policy formulation [foreign debt, imports, tourism inflows].

ITSS compilation in the Pacific

Which PICs compile ITSS?????

- All PICs who compile GDP (E)
 - Fiji: releases GDP uses all 3 approaches uses SUT framework
- All PICs that compile the BOP
 - Fiji: compiles and disseminates ITSS every quarter
 - All other PICs only do estimates using OET/ITRS data from the Bank for inclusion in the goods and services account of the current account in the BOP

Central Banks

National Statistics Offices

Classification

2010 Extended Balance of Payments Services Classification (EBOPS 2010).

Note: For the full classification refer to Annex 1 of the Trade in Services Manual 2010. What given here is specific to Fiji - mode of transport such as railway and road excluded.

		Credit	Debit

- Data needs to be collected, compiled, analysed and disseminated on a 'legal basis' e.g. Statistics Act:
 - Allows the e.g. NSO to collect the data
 - Protects the confidentiality of the information submitted
- Frequency of compilation: quarterly
- Data sources
 - Partner country
 - International Merchandise Trade Statistics
 - OET/ITRS
 - primarily not collected for statistical purposes. Therefore they differ in nature, scope and quality to data collected through surveys.

Data sources cont...

Data validation process in Fiji

Data for non-responding establishment are not rated-up since not all of them engage in regular export and import of services every quarter.

Admin data incorporated during Finalise data and enter data stage

Modes of Supply

Four main modes through which services are traded internationally:

Mode 1: Cross boarder supply

Mode 2: Consumption abroad

Mode 3: Commercial presence

Mode 4: Presence of natural persons

Valuation

Market price

Market price refers to the value at which services are or could be exchanged for cash.

In cases where the market price of the services is mispriced, not known or not available, a price is be imputed based on the similar known transactions.

Time of recording

Accrual basis

The provision of services should be recorded on an accrual basis in each accounting period, that is, it should be recorded when the service is rendered and not when the payment is made.

Services such as transport or hotel services are provided within a distinct period in which case there is no problem in determining the time of recording.

Data dissemination

Follow dissemination strategy

Revision Policy

Do we revise ITSS?

Conclusion

Where to?

Continue doing estimates using OET/ITRS for BOP

Compile ITSS like Fiji does

If like Fiji then who does it –

Central Bank or NSO: Fiji/Vanuatu/Samoa

Resources?

Skills?

Who provides TA?

PICTs have small national statistics offices

Country NSO	No of staff in 2019					
American	7					
Samoa	,					
Cook Islands	10					
FSM	21					
Fiji	146					
Guam	30					
Kiribati	14					
RMI	5					
PNG	134					
Nauru	5					
Niue	4					
CNMI	6					
Samoa	87					
Tuvalu	4					
Vanuatu	52
