PACER Plus
Joint Committee

Ninth Meeting of the PACER Plus Joint Committee

25-26 November 2025

Honiara, Solomon Islands

OUTCOMES DOCUMENT

1. The Ninth Meeting of the PACER Plus Joint Committee (PPJC) was convened on 25-26 November 2025 in Honiara, Solomon Islands. The Meeting was attended by officials from Australia, Cook Islands, Kiribati, New Zealand, Niue, Samoa, Solomon Islands, Tonga, Tuvalu, and Vanuatu. Also present at the Meeting were staff of the PACER Plus Implementation Unit (PPIU). The full list of delegates is provided in Annex 1.

2. The Meeting was Chaired by Ambassador Collin Beck, Permanent Secretary of the Ministry of Foreign Affairs and External Trade, the Government of Solomon Islands.

Opening Session

3. The Chair welcomed all PACER Plus Parties to Solomon Islands and encouraged a renewed commitment to the Agreement as a key instrument for deepening regional integration. He highlighted the significance of this Joint Committee meeting in taking stock of progress over the past five years and in charting priorities for the 2025 - 2030 period. The Chair commended the work of the PPIU and emphasised the need for the Joint Committee to ensure that the Unit is adequately resourced to support Parties in optimising development gains from the Agreement. He acknowledged that PACER Plus entered into force during the COVID-19 pandemic and has since contributed to strengthening resilience across the region. The Chair encouraged members to engage

in deliberations in the Pacific way of tok stori/talanoa to collectively address challenges and identify practical pathways forward.

Adoption of Agenda

4. The Meeting adopted the agenda with amendments as presented, attached as Annex 2.

Joint Committee Intersessional Decisions

5. The Meeting took note of four (4) Intersessional Decisions made since May 2025, which included:
    i. Amendments to the Operations Manual (PPJC.INT.D.13);
    ii. Noting of the Sustineo Review reports and establishment of the Temporary Working Group (TWG) of the Joint Committee (PPJC.INT.D.14);
    iii. Conveyance of several important and time pressed decisions from the Budget Committee including extension of the PPIU staff contracts by three (3) months with the flexibility to go longer and to provide an Action Plan for the recruitment of all roles (PPJC.INT.D.15); and
    iv. Legal process for the Extension of the PPIU involving consultations with Host Government and Principal donors and to progress discussion under the TWG established earlier (PPJC.INT.D.16).

Report of the DEC Work Programme 2021-2025

6. The PPIU Head provided the Meeting with the Reflection Report on the implementation of PACER Plus between 2020 and 2025 and highlighted achievements, challenges, and lessons learned to inform discussions on priorities for the next implementation cycle through 2030.
7. The Meeting welcomed the reflection report and provided the following observations:
    - The meeting thanked the Government of Solomon Islands and its people for hosting the 9th Joint Committee meeting and for the successful hosting of recent important regional meetings, namely the Pacific Islands Forum Leaders and PLMAM.

- The PACER Plus Agreement is recognised as a cornerstone of regional economic integration in the Pacific, and the PPIU was recognised as its operational backbone.
- The support provided by the PPIU under the DEC has significantly contributed to improving the legal and regulatory frameworks, building capacity of institutions, provision of equipment to support SPS and TBT and direct support to the private sector.
- Reflections were made on the original ambitions of the PACER Plus negotiations and noted that the Implementation Unit and the Agreement is still in its infancy.
- Labour Mobility remains a primary development priority for many Parties, given export capacity constraints. The success of the Niue-Solomon Islands intra-Pacific labour mobility pilot in the aged care sector was highlighted, with potential for expansion to other opportunities. The meeting emphasized Gender Equality, Disability, and Social Inclusion (GEDSI), noting active participation of women and youth.
- Technological developments in trade remain a priority for Parties, including digital trade, e-commerce, and customs automation through ASYCUDA World. Converting digital readiness into tangible trade flows and prioritizing Trade in Services, tourism, ICT, and creative industries were identified as some key activities for the next DEC.
- The direct support to the private sector to enhance market access and business confidence, calling for sustained investment in institutional capacity building. Targeted support has assisted businesses with their export readiness.
- Lessons from the past five years were noted to guide the next cycle including the ongoing need to increase domestic awareness on PACER Plus, and continuing capacity building in meeting international standards.
- The success of PACER Plus should not be measured by trade flows but include trade readiness and improved capacity.
- The MELA Framework must align with national processes for easier implementation. PPIU Reporting should include comprehensive data, infographics, and gender-disaggregated figures to track progress over the past five years and evaluate performance effectively.

- The special and differential provision of PACER Plus was highlighted noting that some countries will be graduating from their LDC status and need continued support from the DEC Work Programme.
- The institutional strengthening of PPIU and stakeholder engagement were underscored as critical for continuity and impact. The role of national coordinators for effective implementation was critical. There is a need for a smooth transition to the next cycle based on existing PPIU expertise and to avoid operational disruptions.

8. The Joint Committee:

   (i) noted the Reflection Report on DEC 2020-2025; and

   (ii) directed that the PPIU enhance the Report in the future to include comprehensive data and infographics.

Report of the Eleventh Budget Committee Meeting

9. The Meeting considered the Report of the Twelfth Meeting of the PACER Plus Budget Committee (PPBC), which was convened virtually on 24-25 September 2025. The Meeting noted that the PPBC focused on reviewing financial and operational performance, status of implementation of FY2024-205 Annual Planning and consideration of options for the transition to the new Implementing Arrangement (IA).

10. The Joint Committee:

   (i) approved the Outcomes of the 12th PPBC Meeting and further approved the following:

      a) PPIU Annual Report for the Financial Year 2024-2025.

      b) Audit Report and Financial Statements for the fiscal year ended 30 June 2025; and

   (ii) approved to commence the review of the DEC Work Programme in 2029 in consideration of renewal for the subsequent contract phase.

Regional Trade Discussion

11. The Meeting discussed the positioning of PACER Plus in the regional architecture in line with the Pacific Islands Forum Leaders' Decision on the Review of the Regional Architecture (RRA) and key decisions of the Forum Trade Ministers Meeting (FTMM).

12. The Meeting reaffirmed the importance of PPIU operating as a standalone entity in driving PACER Plus priorities and highlighted the following:

    - In the RRA, PACER Plus should be acknowledged as a unique Regional/Free Trade Agreement and is a member driven entity to implement treaty obligations and the DEC Work Programme.
    - The need to strengthen coordination within the RRA to avoid duplication of resources and efforts with other regional bodies.
    - The need for the region to strengthen regional integration considering global uncertainties.
    - Agreed to strengthen the language in the PACER Plus Ministers' Communique to reflect the important position of PACER Plus in the regional architecture and the importance of supporting rules-based trade architecture.
    - Reaffirmed that PACER Plus remains a unique platform to prioritise value for money in its operations.
    - Welcomed the decision by the Forum Trade Ministers Meeting to grant observer status to the PPIU and supported it being granted observer status at other relevant regional meetings.

13. The Joint Committee:

    i. noted the discussions of the Forum Trade Ministers Meeting as it pertains to PACER Plus;

    ii. welcomed the granting of observer status to the PPIU by the Forum Trade Ministers Meeting;

    iii. articulated the unique role of PACER Plus and PPIU in regional architecture and encouraged observer status for PPIU in other relevant regional meetings; and

    iv. recognised and reinforced the role of the PACER Plus Ministers and the Chair of PACER Plus in advocating and promoting PACER Plus priorities in the Forum Trade Ministers Meeting.

Arrangement on Labour Mobility

14. The Meeting considered a paper from the PPIU on the Arrangement on Labour Mobility (ALM), highlighting the PACER Plus role in advancing evidence-based policy, capacity building, and intra-Pacific labour mobility through the Labour Mobility Secretariat. The paper highlighted the roles of the ALM in the regional labour mobility architecture as supported through the ALM Review (2024) and the PACER Plus General Review (2024) and the need for sustainable resourcing beyond 2025 to support ALM strategic priorities, including reintegration, skills development, and improved labour mobility data management.

15. The meeting further:

- Acknowledged the discussions at PLMAM 2025 on the need for sustainable resourcing of labour mobility including for intra-Pacific labour mobility. A dedicated funding stream for labour mobility would help ensure that the substantive development gains from labour mobility are achieved. At the same time, it would not diminish the limited funds available for trade development under the DEC Work Programme.
- Recognized the success of the Niue-Solomon Islands intra-Pacific labour mobility pilot in enhancing the aged care sector in Niue while generating income for Solomon Island retired nurses. The pilot has confirmed the potential of labour mobility to generate triple wins for workers, the countries they are from, and labour receiving countries where they work.
- Underscored the significance of the ALM as a cornerstone of the PACER Plus Agreement. The ALM has been a key motivation for Pacific Parties' ratification of PACER Plus. Labour mobility is a lifeline for Pacific peoples and the ALM has generated tangible direct benefits which have improved the economic resilience of Pacific communities. These benefits are particularly crucial for Parties given the development challenges associated with countries' isolation and limited markets, thereby enhancing the development outcomes of PACER Plus.
- Recognized the role of the ALM in operationalizing the Pacific Regional Labour Mobility Principles, thereby confirming its crucial role in the regional labour mobility architecture.
- Noted interest from Pacific labour sending countries for existing labour mobility schemes to expand to new sectors where there is demand for semi-skilled labour including in metropolitan Australia and New Zealand.

- Confirmed that the Budget Committee and the Joint Committee would remain as the governance mechanism to determine funding for labour mobility priorities within the DEC Work Programme.

16. The Joint Committee:

(i) acknowledged the Labour Mobility Secretariat as an intrinsic element of the PPIU structure;

(ii) approved dedicated funding for the 2025—2030 PACER Plus labour mobility work programme to fund strategic priorities for 2025-2030, including reintegration, skills development, intra-Pacific labour mobility, and strengthened labour mobility data management;

(iii) acknowledged the PPIU will continue collating comments on the ALM Amendment draft and to convene an in-person consultation in early 2026 to finalise the Amendment; and

(iv) noted that the ALM Amendment includes a review of the PLMAM structure and procedures to strengthen targeted dialogues in line with priorities identified at PLMAM 2025.

Report of the Joint Committee Temporary Working Group

17. The Meeting considered the Report of the Joint Committee Temporary Working Group (TWG). The TWG was established by the PPJC to review and assess the recommendations of the PACER Plus Review Reports[1] and report the discussion and proposal to the Joint Committee. The TWG comprised of four Parties including the current Chair of the Joint Committee, Solomon Islands, Principal Donors, Australia and New Zealand and Host Government (of the PPIU), Samoa.

18. The Meeting noted that the TWG held two virtual meetings in November 2025 to consider prioritization of the recommendations from the Review Reports and the recommendations were consolidated in the PACER Plus Review Synthesis Report, and they also considered and approved a draft Phase II Implementing Arrangement for DEC under PACER Plus 2025-2030.

19. New Zealand provided a presentation to explain the draft Phase II IA for DEC under PACER Plus and pointed out the need to reflect the strategic priorities in the new IA. New Zealand

[1] PPIU Independent Corporate Assessment (KPMG), PPIP Final Evaluation Report (Sustineo) and PPIU Governance Review (Sustineo)

emphasized that there were minor changes particularly on paragraph 7 due to changes in their policies (i.e. Statements of Partnership). The Meeting agreed to merge paragraphs 8 and 9 to address New Zealand's new policies.

20. The Joint Committee:

(i) noted the Outcomes of the TWG;

(ii) discussed the draft Phase II Implementing Arrangement for Development and Economic Cooperation under PACER Plus and approved its finalisation;

(iii) considered and discussed the high prioritised recommendations noting that the descriptions and timelines should be adopted with flexibility;

(iv) noted the TWG's proposal to amend the sunset clause of the PACER Plus Implementation Unit Constitution for further discussion;

(v) noted the difficulty of virtual TWG meetings and the value of convening in-person to progress discussions; and

(vi) noted that the TWG mandate as per its Terms of Reference, has been met.

Extension of the Implementing Arrangement (IA) for Development and Economic Cooperation under PACER Plus

21. The Meeting noted the draft Phase II Implementing Arrangement for Development and Economic Cooperation under PACER Plus for 2025-2030. The Meeting noted that the draft Phase II IA updates with the Development and Economic Cooperation Work Programme (Work Programme) incorporates the Strategic Priorities of PACER Plus Parties as approved by the Joint Committee in May 2025.

22. The meeting further noted that the current DEC, which commenced when the Agreement entered into force on 13 December 2020, will end on 12 December 2025. The next DEC will take effect from 13 December 2025 until 12 December 2030. The Meeting discussed the draft document in detail and provided their respective comments.

23. The Joint Committee:

(i) considered and approved the draft Phase II Implementing Arrangement for Development and Economic Cooperation under PACER Plus for 2025-2030, for signing by PACER Plus Ministers.

PPIU Administrative Arrangement during transition to the new IA for DEC under PACER Plus 2025-2030

24. The purpose of this paper is to seek the Joint Committee's consideration and approval of the Project Proposal — PACER Plus Implementation Unit (PPIU) Administrative Arrangement during transition to the new IA for DEC under PACER Plus 2025-2030.

25. The meeting further:

- Agreed to flexibility in the extension of staff contracts for the transition period of six months and to maintain the TWG to provide oversight throughout the transition.
- Agreed to review and update the Terms of Reference of TWG to reflect its responsibilities during the transition period.
- Discussed that adequate funding should be available to support the work of the TWG to ensure continuity and support the implementation of the Action Plan on the PPIU Administrative Arrangement during the transition to the new IA.

26. The Joint Committee:

i. considered and approved the Action Plan on the PPIU Administrative Arrangement during transition to new IA;

ii. agreed to extend the transition period to six months to cater for the implementation of the PPIU Administrative Arrangements; and

iii. approved to maintain the TWG to provide oversight throughout the transition and to review and update the Terms of Reference of the TWG to reflect its responsibilities during the transition period.

DEC Work Programme 2025-2030

27. The Meeting noted the report on the work that has been undertaken as part of the Action Plan for the Extension of the IA for DEC under PACER Plus, which sets the foundation for development of the next DEC Work Programme for 2025-2030. The meeting was provided with an update on the development of the PACER Plus MELA Logical Framework 2025-2030 (Log Frame). The Log Frame provides a structured results chain to ensure evidence-based, accountable, and results-driven implementation across all components. The Meeting noted that the PPIU, with support from the

International Trade Centre, is finalizing the Log Frame to deliver and inform the strategic design of the PACER Plus Work Programme 2025—2030.

28. The meeting acknowledged the work undertaken by the PPIU on the MELA framework, recognising its importance to the Agreement and its value to Parties.

29. The Meeting supported the recommendations but raised concerns with the ambitious action plan that the PPIU will be undertaking in the first 3-6 months in 2026. It was noted that the TWG will be providing support to the PPIU during the whole transition period.

30. The Joint Committee:

    (i) noted the update of progress on the Action Plan for the Extension of the IA for DEC under PACER Plus; and

    (ii) approved the timeline of work for development of the five-year DEC Work Programme for 2025-2030.

PACER Plus Membership and Strategic Partnership

31. The Meeting noted the Guideline on ratification, approval, and accession to PACER Plus which outlined procedures for ratification, approval, and accession, enabling Forum Island Countries to join the Agreement regardless of whether they have negotiated schedules. The Meeting also noted current efforts to promote new membership relied on informal channels, including collaboration with regional and international partners and high-level diplomatic engagement through platforms such as the Forum Trade Ministers Meeting.

32. Some Members noted the importance of ensuring that the promotion of PACER Plus does not conflict with existing arrangements currently in place for Parties. It was also recognized that access to the DEC Work Programme may need to be reviewed considering new PACER Plus members, which may require additional resources. The principal donors assured the Meeting that additional resources would be provided for new membership. The Meeting recommended that the PPIU Head engage with the Joint Committee Chair to enhance advocacy and information sharing with potential new members.

33. On strategic partnership, the Meeting noted that it was important that strategic partners contribute resources to the work programme.

34. The Joint Committee:

    (i) noted the Guideline on ratification, approval and accession to PACER Plus;

    (ii) noted the updates from Parties on their respective engagement with FICs on free trade and PACER Plus advocacy; and

    (iii) agreed for the PPIU to develop an advocacy strategy for accession by all Forum Island countries to be considered at the next Joint Committee meeting.

Ministerial Communique

35. The Meeting considered and recommended the draft Communique for the PACER Plus Ministerial Meeting scheduled for 27 November 2025, for adoption by Ministers.

Tenth Joint Committee Meeting

36. The Meeting considered the proposed annual schedule of Joint Committee and subsidiary bodies meetings (governance meetings) and rotational schedule for the chairing of Joint Committee meetings and its subsidiary bodies.

37. The meeting acknowledged Tonga as the Chair of the Joint Committee in 2026, and the host of the 10th Joint Committee Meeting.

38. The Joint Committee:

    (i) approved the proposed Schedule of Governance Meetings for the next five years 2026-2030.

    (ii) approved the proposed Rotational Schedule for chairing of meetings for the Joint Committee and its subsidiary bodies, and for Tonga to be the Chair of the Joint Committee in 2026.

Any Other Business

39. The Meeting noted the issue of the Head of the PPIU's contract ending in December 2025 and agreed that the current Chair of the Joint Committee will facilitate the extension of the Head of the PPIU's contract until the end of the transition period.

Closing Session

40. The Chair of the Joint Committee thanked all the Parties for their effective contributions resulting in the successful completion of the meeting. He also extended his well wishes to Tonga as they take on the chairmanship of the Committee from 2026.

41. The Meeting expressed their gratitude to the Chair of the Joint Committee for his able leadership of the Meeting and expressed their gratitude for the hospitality and support accorded to them during their stay in Honiara, Solomon Islands.
